

The Bellaire brings Mediterranean flair

The new Bellaire Condominiums at 7134 Mapleridge introduce a graceful, elegant Mediterranean style to one of Houston's most prestigious neighborhoods. Situated just west of Bellaire Park, the four-story Bellaire offers 27 intimate residences in a variety of floor plans.

Controlled entry, private parking, and glass-walled elevators overlooking private courtyards characterize the exterior, while interior amenities combine condominium functionality with custom-home quality.

The Bellaire is created and developed by Rain Properties, a real estate partnership between ArchiTECH Design and Development Inc., headed by leading architectural designer Mort Mehdi, and developer Dr. David Suchowiecky. According to Dr. Suchowiecky, The Bellaire is a prime example of a Rain Properties approach to contemporary living. "We strive for a combination of upscale lifestyle at reasonable prices," said Suchowiecky. "With pre-construction pricing starting from the 250's, combined with its prime location and elegant styling, we feel we have achieved that goal."
